## FAQ'S

Throughout the journey we will be connected with you and ensure you're informed about all the support provided to the children and their progress towards a better future. To begin with, here are some questions we believe you may wish to inquire:

### 1. How is my money spent?

ChildFund India allocates 82% of its total expenses to children's development programs, focusing on quality education, health services, livelihood opportunities, child protection, and disaster preparedness. This demonstrates our efficiency and strong commitment to children's welfare.

### 2. Do I get updates about the child supported?

You're welcome to visit our project and see firsthand how children are benefiting from your support. To schedule a visit, please send an email to [donorcare@childfundindia.org](mailto:donorcare@childfundindia.org).

### 3. Why should I support a child for a long tenure or 3 years?

Supporting a child for three years or more ensures consistent access to quality education, healthcare services, and balanced nutrition fostering holistic development. It builds meaningful relationships, enables measured progress, and has a positive impact on both the child and their community, breaking the cycle of poverty and enabling them to empower their future generations.

### 4. Why should I share my personal details name, mobile number, email id and address?

Sharing personal details like name, mobile number, email id and address ensures compliance with income tax laws and facilitating transparent declaration of received donations as required by regulations. Please read more about it on
